

Do not weaken the Wi. do not call list. Instead reinforce it. I have the right to my privacy, and I want that honored. If I want a companies business, I'll contact them? Otherwise, they can send me stuff through regular mail, newspapers, TV, or radio. They don't need to be pestering me 24/7 and trying up my phone, or I'll just remove my phone too? My right to privacy is being taken away from me by these intrusive companies.

Dennis Hanson
